

Special Issue

E-health in Primary Care: Trends and Advances in Applications, Usage and Implementation

Message from the Guest Editors

Primary care organizations, such as general practices, pharmacists and physiotherapists, are continuously challenged to provide affordable, accessible and high-quality care.

This special issue of the International Journal of Environmental Research and Public Health (IJERPH) focuses on the current state of knowledge on the use of e-health technology in primary care and the perspectives and experiences of health care professionals and health care consumers with e-health technology. Original research papers, reviews, and case reports are welcome to this issue. Papers dealing with experiences gained during the COVID-19 pandemic are also welcome. Other manuscript types accepted include methodological papers, position papers, brief reports, and commentaries.

We welcome manuscripts with different topics, including implementation, epidemiology, intervention studies, patient safety, and cost-effectiveness studies. **Keywords:** General practice; primary care; paramedic care; prevention; perspectives; experiences; e-health; innovation; COVID-19; implementation

Guest Editors

Prof. Dr. Roland Friele

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
