

## Special Issue

# Advancing Workplace Health Management: Strategies, Challenges and Future Directions

### Message from the Guest Editor

This Special Issue aims to bring together cutting-edge research on strategies, interventions, and policies that promote workplace health. We welcome the submission of empirical studies, theoretical contributions, and systematic reviews addressing key issues such as occupational stress, psychosocial risks, employee well-being programs, and the role of leadership in fostering a health-promoting work culture. Additionally, we encourage research exploring the impact of digitalization, remote and hybrid work models, and workplace diversity on employee health. By gathering interdisciplinary perspectives, this Special Issue seeks to advance scientific knowledge and provide practical recommendations for organizations, policymakers, and practitioners aiming to create healthier and more sustainable work environments. We invite contributions from researchers in occupational health, psychology, human resource management, public health, and related fields.

### Guest Editor

Dr. Cátia Sousa

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
