

## Special Issue

# Electric, Magnetic, and Electromagnetic Fields in Biology and Medicine: From Mechanisms to Biomedical Applications

### Message from the Guest Editors

Electric, magnetic, and electromagnetic fields are widely used in everyday life, as well as in specific occupational environments. In addition, these kinds of non-ionizing radiations are also successfully employed in biomedical applications, for both diagnostic and therapeutic purposes.

This Special Issue is open to scientific studies addressing biophysical, in vitro, in vivo, and epidemiological investigations on electric, magnetic, and electromagnetic exposure aimed at evaluating possible negative health effects, studies exploring the beneficial potential of such fields for diagnostic and therapeutic applications, and studies focusing on the associated interaction mechanisms. It includes work in any frequency area, from static fields up to exposures in the THz region. Moreover, the article may cover exposure assessment, dosimetry, hazard identification and characterization, risk assessment, communication, and management.

### Guest Editors

Dr. Maria Rosaria Scarfi

Prof. Dr. Mats-Olof Mattsson

Prof. Dr. Myrtil Simkó

Dr. Olga Zeni

### Deadline for manuscript submissions

closed (28 February 2019)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
