

## Special Issue

# Emotion Regulation in Children and Adolescents

### Message from the Guest Editors

Emotional regulation is becoming a key variable to understand and explain many of the behavioral problems that we observe in children and adolescents. That is why this special issue has established the main objective of collecting current research in relation to procedures, difficulties and strategies that provide information on how this essential variable influences the different areas of life of the youngest.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.
