

Special Issue

Emotion Regulation in Children and Adolescents

Message from the Guest Editors

Emotional regulation is becoming a key variable to understand and explain many of the behavioral problems that we observe in children and adolescents. That is why this special issue has established the main objective of collecting current research in relation to procedures, difficulties and strategies that provide information on how this essential variable influences the different areas of life of the youngest.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
