

Special Issue

Palliative and End-of-Life Care

Message from the Guest Editors

This Special Issue is intended to inform policy and practice for improving palliative and end-of-life care. The topics of interest include but are not limited to identifying personal, socio-cultural, environmental, and legal factors influencing the quality of end-of-life care, perspectives or experiences of various stakeholders towards palliative and end-of-life care, the palliative care needs of patients and family members, developing and testing of innovative interventions in supporting caregiving in palliative care or promoting palliative care, and in optimizing the quality of life of people with life-limiting conditions and their family members. Different kinds of articles, such as original articles, literature reviews, and brief reports, are welcomed.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
