

Special Issue

Integrative Analysis in Food Science, Nutrition and Environmental Health

Message from the Guest Editors

We welcome original research and reviews. Papers addressing these topics are invited for this Special Issue, especially those combining a high academic standard coupled with a practical focus on providing practical information and solutions.

- Analytical methods applied to the analysis of foods and environmental samples.
- Consumer motivations, perception and selection of food products, and resulting nutritional value of diet.
- Effects of consumer behavior on physical, mental, or social health outcomes.
- Consumer attitudes and food choices for the prevention and treatment of diet-related diseases.
- Nutritional recommendations and dietary guidelines as strategies in diet-related diseases prevention and treatment.
- Lifestyle and environmental factors influencing health benefits and risks.
- Current nutritional trends and related nutritional behaviors (plant-based diet, sustainable diet, paleo diet, ketogenic diet, zero-waste lifestyle) as factors influencing human health.
- Technologies applied in marketing strategies, food policy, and behavioral interventions for public health purposes.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
