

Special Issue

Forest for Human Health and Welfare

Message from the Guest Editors

This special issue highlights up-to-date findings and evidences to reveal beneficial effects of forest on human/public health and welfare. Contributions may focus on one or more of the following areas:

Various health and welfare effects (e.g., psychological, mental, physiological, and others) from forest uses and forest-based intervention

Social and economic impacts of forest use and management in human health/welfare

Why and how forests contribute to human health and welfare, especially in preventing disease, prolonging life, and promoting physical, social, psychological welfare

Virtual use of forest/nature and human health/welfare

Policy-making, planning and design related to forests and human health/welfare

Selection and establishment of forest resources and other vegetation for human health/welfare

Management of forests and other vegetation for human health/welfare

Methodology for evaluating human health/welfare effects from forests

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
MD 21251, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
