

# Special Issue

## Forest for Human Health and Welfare

### Message from the Guest Editors

This special issue highlights up-to-date findings and evidences to reveal beneficial effects of forest on human/public health and welfare. Contributions may focus on one or more of the following areas:

Various health and welfare effects (e.g., psychological, mental, physiological, and others) from forest uses and forest-based intervention

Social and economic impacts of forest use and management in human health/welfare

Why and how forests contribute to human health and welfare, especially in preventing disease, prolonging life, and promoting physical, social, psychological welfare

Virtual use of forest/nature and human health/welfare

Policy-making, planning and design related to forests and human health/welfare

Selection and establishment of forest resources and other vegetation for human health/welfare

Management of forests and other vegetation for human health/welfare

Methodology for evaluating human health/welfare effects from forests

---

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
