# **Special Issue**

# Shale Gas and Fracking: Impacts on Health and the Environment

# Message from the Guest Editors

We welcome papers on any aspect of the broad general themes of the issue and from a range of disciplinesphysical sciences, medicine, social sciences and engineering—including papers across disciplines. Submissions might, for example, address debates around hazard identification, risk, risk perception and risk communication, community engagement in planning or opposing shale gas developments, environmental and public health impact assessments and epidemiology, air pollution, water and soil pollution, interventions, and policy and regulation and enforcement. Whilst submissions are welcome from anywhere in the world, we would especially welcome those from low and middle-income countries within Africa, South America, and Asia, as well as contributions from Australia, Russia, and Central and Eastern Europe, where shale gas explorations are planned or currently underway.

# **About the Journal**

# Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

# Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens University Australia, Adelaide 5000, Australia

## **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

## Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
