Psychometric Advancements in the Measurement of Sexual and Gender Minority Health

Message from the Guest Editors

Research focusing on the health and wellbeing of sexual and gender minorities has grown appreciably over the past decade. However, psychometric limitations remain problematic, with instruments designed for cisgender heterosexual individuals often being (mis)applied to members of the LGBTQ2S+ community. This Special Issue of *IJERPH* will include papers that 1) detail cutting-edge advances in the measurement of health-related variables pertinent to sexual and gender minorities; 2) evaluate the psychometric integrity of scales that, while not originally designed for LGBTQ2S+ populations, have been distributed to these groups; 3) offer best-practice recommendations for scale development and psychometric testing; and 4) provide strategies to help researchers avoid selecting problematic and otherwise substandard instruments.

Guest Editors

Prof. Dr. Todd G. Morrison

Department of Psychology and Health Studies, University of Saskatchewan, Saskatoon, SK S7N 5A5, Canada

Dr. CJ Bishop

Psychology Program, Grenfell Campus, Memorial University of Newfoundland, Corner Brook, NL A2H 5G4, Canada

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
