

## Special Issue

# Promoting Geriatric Care: Comprehensive Geriatric Assessment, Frailty and Resilience

### Message from the Guest Editor

A Special Issue, entitled Promoting Geriatric Care, of the *International Journal of Environmental Research and Public Health* is being organized. Geriatrics is a growing and flourishing field of medicine. Considering the population's ageing and public health, knowledge supporting resilience and maintaining good functional status in older age deserves attention. Comprehensive geriatric assessment (CGA) is considered one of the fundamental geriatric competencies. How is CGA incorporated in successful services for geriatric patients and innovative models of care? What do we know about frailty and resilience, and how can this be used for real-life geriatric patients? How can bridging different fields of medicine and combining geriatric and other medical competencies contribute to the best outcomes for older people? This Special Issue is dedicated to the subject area of geriatrics, reflecting the importance of the functional status of the geriatric population for public health. For detailed information on the journal, please see <https://www.mdpi.com/journal/ijerph>. Dr. Hana Vankova *Special Issue Editor*

### Guest Editor

Dr. Hana Vaňková

Third Faculty of Medicine, Charles University, Prague 100 00, Czech Republic

### Deadline for manuscript submissions

closed (31 October 2023)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
