

Special Issue

Community-Based Mental Health Promotion and Psychosocial Support

Message from the Guest Editor

The *IJERPH* is pleased to announce an upcoming Special Issue dedicated to "Community-Based Mental Health Promotion and Psychosocial Support". We are inviting researchers, scholars and practitioners to contribute their original research and review articles to this significant topic.

- Community-based approaches for promoting mental health: exploring strategies, outcomes, and challenges.
- The role of community engagement in addressing mental health disparities and enhancing well-being.
- Harnessing social determinants of mental health: understanding the impact and implications for community-based interventions.
- Building resilient communities: exploring the intersection of mental health, psychosocial support and community resilience.
- Overcoming stigma and discrimination: promoting inclusion and mental health literacy within community-based programs.
- Strengthening the integration of mental health and psychosocial support services: multilevel approaches, policy implications and best practices.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward
