

Special Issue

Feature Papers: Health Economics

Message from the Guest Editor

The Special Issue “Feature Papers: Health Economics” aims to publish high-quality articles covering all fields of Health Economics. Its scope includes but is not limited to macro- and microeconomics of healthcare financing, health insurance and reimbursement, as well as health economic evaluation, health services research and health policy analysis, cost-effectiveness in healthcare, and health organization and administration. If your paper is well prepared and approved for further publication, you might be eligible for discounts for your publication.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
