

## Special Issue

# Feature Papers: Health Economics

### Message from the Guest Editor

The Special Issue “Feature Papers: Health Economics” aims to publish high-quality articles covering all fields of Health Economics. Its scope includes but is not limited to macro- and microeconomics of healthcare financing, health insurance and reimbursement, as well as health economic evaluation, health services research and health policy analysis, cost-effectiveness in healthcare, and health organization and administration. If your paper is well prepared and approved for further publication, you might be eligible for discounts for your publication.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
