Special Issue

Indoor Air Quality: Risk Assessment and Public Health

Message from the Guest Editors

This Special Issue of *International Journal of Environmental Research and Public Health* aims to feature full-length articles, reviews, and communications addressing novel research on this topic from a multidisciplinary point of view, including (but not limited to):

- Levels of pollutants in indoor air ambient (mainly air and dust samples).
- Respiratory viruses in indoor air environments.
- External exposure assessment of pollutants.
- Alternative approaches for risk assessment and management.
- New regulatory guidelines for emerging pollutants.
- Case-studies, results, and findings in specific geographical regions.

All contributions regarding fundamental and applied research on these topics, including novel research and results conducted by undergraduate or PhD students are welcomed in this Special Issue.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers.

Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation, Richard N. Dixon Research Center, Morgan State University, Baltimore, MD 21251, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
