

Special Issue

An Innovative Approach on Sport Injury Research

Message from the Guest Editors

This Special Issue bridges the gap between advanced science/technology and practice in the promotion of sport injury assessment, prevention and treatment. The application of the advanced science/technology in elite athletes will be highly desired.

Papers should focus on, but are not limited to, the following related topics:

- Cutting-edge equipment/technology used for competition, training, rehabilitation and coaching
- Sports equipment-related design and innovation (the ideation process, concept creation, embodiment refinement, design for mass manufacture and for sustainability)
- The development and validation of measurement, feedback, instrumentation, processes or software to enhance research activities within sports engineering and technology
- Sports biomechanics and the interaction with the environment, gear, and suit in the context of sports injury, sports medicine, and rehabilitation.
- Association of physical fitness, sports training, and athletic performance with sports injury.

Guest Editors

Dr. Wing-Kai Lam

Sports Information and External Affairs Centre, Hong Kong Sports Institute, Hong Kong

Dr. Duo Wai-Chi Wong

Department of Biomedical Engineering, Faculty of Engineering, The Hong Kong Polytechnic University, Hong Kong

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
