

## Special Issue

# Impact of the Work Environment on the Health and Social Effects of Employees

### Message from the Guest Editors

The work environment is a set of materials and social factors that employees encounter during the performance of tasks. According to the Constitution of the International Labor Organization, "Every worker, in any profession, has the right to adequate protection of his life and health" (Declaration of Philadelphia). The report of the European Agency for Occupational Safety and Health (Priorities for occupational safety and health research in Europe: 2013–2020) proves that psychosocial risks are one of the most important challenges for employees' health. In some publications, the authors prove that the multifaceted phenomenon of work efficiency depends on many variables, such as employee's personal characteristics, shift work, stress level, social support, interpersonal relations, or organizational culture. Research addressing these topics is invited for this Special Issue, especially seeking knowledge on the relationship between selected work environment factors and the health and social effects of employees.

### Guest Editors

Dr. Aleksandra Gaworska-Krzemińska

Department of Nursing Management, Medical University of Gdansk, 80-211 Gdansk, Poland

Dr. Dorota Maria Kilarńska

Department of Coordinated Care, Medical University of Lodz, 90-419 Lodz, Poland

### Deadline for manuscript submissions

closed (30 November 2023)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
