

## Special Issue

# Advances in Soil Erosion and Ecological Restoration

### Message from the Guest Editors

The Special Issue "Advances in Soil Erosion and Ecological Restoration" of *IJERPH* focuses on the current state of knowledge on the links between soil erosion and environmental development. New research papers, reviews, case reports and conference papers are welcome to this Issue. Other accepted manuscript types include methodological papers, position papers, brief reports, and commentaries. We will accept manuscripts from different disciplines, including but not limited to soil erosion and ecological restoration, soil and water conservation, and erosion assessment and modeling. Some topics of interest for this Special Issue include:

- Extreme climate events and soil erosion response;
- New runoff–sediment relations under changed environment;
- New technologies for soil erosion management;
- Soil erosion and food security;
- Soil erosion and material cycle;
- Soil erosion management and carbon sequestration;
- Regional adaptable soil erosion models;
- Agricultural non-point-source pollution control;
- Ecological restoration and ecosystem services;
- Cultivated land quality protection and promotion strategy.

### Guest Editors

Dr. Yaojun Liu

Dr. Fangxin Chen

Dr. Yusong Deng

### Deadline for manuscript submissions

closed (6 April 2023)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
