

## Special Issue

# Occupational Health and Prevention of Work-Related Diseases

### Message from the Guest Editor

The research exploring factors influencing occupational health and the prevention of work-related illness and injury has been primarily focused on the risks posed by physical workplace hazards. These factors tend to be proximate determinants of occupational disease with directly measurable impacts on human health. In turn, public policy on workplace health and safety and occupational disease remains largely focused on prevention and mitigation of hazardous conditions in the physical work space. The aim of this Special Issue is to compile leading-edge research in the area of occupational health, safety, and prevention, focusing on the determinants and outcomes of physical and/or psychological workplace illnesses or injuries.

### Guest Editor

Dr. Heather Scott-Marshall

Social and Behavioural Health Sciences Division, Dalla Lana School of Public Health, University of Toronto, Toronto, ON M5T 3M7, Canada

### Deadline for manuscript submissions

10 August 2026

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
