

Special Issue

Occupational and Environmental Toxicology

Message from the Guest Editors

This Special Issue calls for original contributions, including observational and experimental studies, exploring the following topics:

- History of occupational and environmental toxicology;
- Occupational and environmental toxicology;
- Exposure assessment approaches;
- Ecotoxicology;
- Bioaccumulation and biomagnification;
- Endocrine disruptors;
- Metals;
- Asbestos;
- Nanomaterials;
- Occupational diseases.

We encourage you to submit your contribution proposals in order to increase awareness about occupational and environmental toxicology.

Guest Editors

Dr. Antonio Baldassarre

Dr. Stefano Dugheri

Dr. Susana Viegas

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
MD 21251, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
