# Outcomes of Joint-Preserving Surgery for Rheumatoid Forefoot Deformity

# Message from the Guest Editors

We are organizing a Special Issue on the impact of joint-preserving surgeries for rheumatoid forefoot deformities in the *International Journal of Environmental Research and Public Health*. There are many procedures to preserve joints, including various types of osteotomy and soft tissue reconstruction. This Special Issue aims to provide detailed surgical techniques and the outcomes of each procedure. We hope that surgeons can choose the optimum surgical methods from this Special Issue to achieve the best practice and restore foot health.

# **About the Journal**

# Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

# Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens University Australia, Adelaide 5000, Australia

## **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.
