## Editorial Board Members' Collection Series: Artificial Intelligence and Mathematical Modeling for Public Health—an Agenda for the Future

## Message from the Guest Editors

We are pleased to announce this collection titled "Editorial Board Members' Collection Series: Artificial Intelligence and Mathematical Modeling in the Public Health Agenda". This issue will be a collection of papers, and researchers invited by the Editorial Board Members. The aim is to provide a venue for networking and communication between *IJERPH* and scholars in the field of AI, biology, mathematical modeling and health. All papers will be published with fully open access after peer review.

## **About the Journal**

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
