

Special Issue

Challenges and Advances in Nursing Practice in Latin America

Message from the Guest Editors

This Special Issue seeks to delve deeper into the panorama of challenges and advances in nursing in Latin America, as well as to discuss the scenario of nursing social practice. Topics of interest include: nursing work environments; the global nursing staff shortage; the increasing spread of zoonoses and pandemic threats; responses to growing social pressures, particularly those facing vulnerable populations; the training and management of professional nursing education and the diversification of study programs; innovation in nursing and health; control of chronic non-communicable diseases; the social role of nursing professionals; and the problems of precariousness, excessive workload, fatigue, stress, and illness.

Guest Editors

Prof. Dr. Rejane C. Marques

Dr. Elaine Maria Leite Rangel

Dr. Márcia Teles de Oliveira Gouveia

Dr. José Wicto Pereira Borges

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
