

## Special Issue

# Promoting Health and Wellness: Implications for Physical Therapy

### Message from the Guest Editors

This Special Issue contains important research related to physical therapy aimed at promoting health care. Physical therapy is a specialized field that improves quality of life through physical activity. The topics cover clinical evidence of the entire process of physical therapy and rehabilitation, which can include current concepts and techniques of pre- and post-operative intervention, diagnosis and patient care, the scientific basis for education and the effectiveness of physical therapy across the life span.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
