Physical Therapy and Sports Recovery

Message from the Guest Editor

We attempt to compile evidence on the role of the physical therapist in the prevention of and recovery from injury in sports, through epidemiological evidence on injuries, or clinical trials that show the role of the physical therapist in the prevention and rehabilitation of musculoskeletal injuries, triggered by sports practice and/or excessive sports gesture “overuse”, especially in athletes/para-athletes. In addition, we recommend the submission of review articles, especially systematic reviews and meta-analyses that demonstrate the role of the physical therapist in rehabilitation and also in the prevention of injuries in athletes/para-athletes.

Guest Editor

Dr. Renato de Souza Melo

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
