

## Special Issue

# Artificial Intelligence and the Future of Public and Global Health: Promises, Expectations and Reality

### Message from the Guest Editors

We welcome papers in three areas of Artificial Intelligence intersecting with Public/Global Health. 1. Learning and predictive technologies facilitating Public Health sectors' decision making: trends, feasibility studies, practicality, trustworthiness, and expectations; 2. The accuracy of traditional statistic forecasting in time of pandemics and impact of data/software tools on their results; 3. Statistical models versus computational models versus data models: do they affect each other and do we understand the impact of their potential inter-relationship on modeling and predictions in the times of pandemics? Perceptions of pandemics, from governance, political decisions, and healthcare management to cultural and behavioral issues of individuals and societies.

### Guest Editors

Dr. Arnold A. Kamis  
Dr. Radmila Juric  
Prof. Dr. Sang C. Suh

### Deadline for manuscript submissions

closed (31 December 2021)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
