

Special Issue

Psychiatry and Mental Health

Message from the Guest Editor

Psychiatry and Psychopathology currently play a pivotal role in an era of great social and cultural change. Through a rigorous selection of papers, we aim to explore the new challenges that arise in light of advances in various areas, such as genetics, molecular medicine, diagnostics, and pharmacology, in order to integrate the vision of clinical medicine with the biological basis of disease.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
