

Special Issue

Psychological Distress and Psychological Factors in the Multidisciplinary Management of Patients with Chronic Pain

Message from the Guest Editors

This Special Issue aims at collecting high-quality, timely research papers on psychological distress and psychological factors in individuals suffering from chronic pain, with a specific focus on chronic primary pain and chronic pain after neurological diseases. Potential contributions for this Special Issue may focus on the following topics:

- psychological distress, psychological and relational factors characterizing patients with chronic pain, and/or their role in: genesis and maintenance of chronic pain and disability; patient's compliance with therapeutic treatments; treatment outcomes;
- psychological interventions for chronic pain or multidisciplinary care models dedicated at integrating physical, rehabilitative, and psychological approaches;
- the translation of psychological assessment and interventions into clinical practice, exploring barriers and facilitators to their implementation, their cost-effectiveness, and patients' experiences.

In light of the current coronavirus disease 2019 (Covid-19) pandemic, papers specifically addressing the possible psychological impact of Covid-19 on the experience of patients with chronic pain are also welcome.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
