Trends and Prospects in Primary Health Care Service

Message from the Guest Editor

We welcome submissions on topics including, but not limited to, the following:

- The primary care workforce.
- The Triple Aim and the Quadruple Aim of primary care.
- Population health and primary care.
- New models of primary care delivery, including the Patient-Centered Medical Home (PCMH).
- Value-based payment models, including the Accountable Care Organization (ACO).
- The rise of consumerism in primary care, including retail healthcare and concierge care.
- Person-centered care and shared decision-making in primary care.
- The changing role of leadership in primary care.
- The role of patient engagement and empowerment in self-management of chronic conditions.
- Linking preventive services to primary health care to manage chronic illness.
- Linking primary care to community resources to improve transitions in care.
- Integration of mental health into primary care.
- Integration of Social Determinants of Health (SDoH) into primary care delivery.
- The role of measurement and metrics in primary care delivery.
- The impact of Practice-Based Research Networks (PBRNs) in primary care.
- New approaches to educating and training the primary care workforce.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief
