

## Special Issue

# Travel, Health, and Wellness of Older Adults

### Message from the Guest Editor

The primary aim of this Special Issue is to catalyze innovative research endeavors that investigate the potential positive impacts of travel on the health, wellness and quality of life of older adults. The scope of submitted articles is broad, encompassing a diverse array of topics, provided they contribute to understanding the senior travel experience, and the intricate relationship between travel and the health and wellness of older adults. In addition, articles on pioneering programs and technological interventions that encourage travel among older adults, as well as those exploring the travel initiatives designed to promote healthy aging, are also welcomed.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
