

## Special Issue

# Diagnosis and Advances in Research on Human Behavior

### Message from the Guest Editor

This Special Issue of IJERPH focuses on a collection of research on novel diagnoses and strategies for the promotion of health behavior from translational and clinical viewpoints, including the promotion of mental health and educational and clinical strategies focused on the early detection of risky behaviors causing multiples pathologies (physical and mental health problems, violence, suicide, obesity, or learning disability), as well as new approaches to intervention, treatment, and monitoring their effects.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

---

### Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,  
Richard N. Dixon Research Center, Morgan State University, Baltimore,  
MD 21251, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
