

Special Issue

Advances in Groundwater Management

Message from the Guest Editors

This Special Issue on “Advances in Groundwater Management” invites papers that present recent developments, innovations, and scientific progress in sustainable groundwater management, including the following topics:

- Hydrogeological systems and sustainable groundwater resources management;
- Groundwater vulnerability and risk management;
- Groundwater quality and public health impacts of groundwater contamination;
- Groundwater policy and social aspects of groundwater management.

Guest Editors

Dr. Mohammed Hssaisoune

Prof. Dr. Lhoussaine Bouchaou

Dr. Abdelghani Chehbouni

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
