

## Special Issue

# Solid Waste Management among Rural Communities in Low- and Middle-Income Countries

### Message from the Guest Editors

This Special Issue aims to present contributions on solid waste management focusing on rural areas in low- and middle-income countries. We invite submissions of original research or review papers. Examples of topics that could be addressed in this Special Issue include the following: waste collection; material and energy recovery from waste; waste disposal; health or environmental impact assessment; epidemiological studies; social and economic aspects; and case studies.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
