

## Special Issue

# Sexual Functioning, Sexual Satisfaction and Health

### Message from the Guest Editors

For this Special Issue, we encourage researchers in human sexuality to submit manuscripts on sexual functioning, sexual satisfaction, and the relationships of this factors with health. Studies on sexual desire, sexual arousal, orgasm, and sexual satisfaction are of interest, as are those on sexual diversity or in populations of different ages (young people, adults, or the elderly), as well as studies that present instruments for assessing sexual functioning and satisfaction. Presentations can be in the form of original articles, brief reports, or critical reviews (systematic reviews and meta-analyses).

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
