

## Special Issue

# Intersections of Public Health, Sexuality, and Communication

### Message from the Guest Editors

This Special Issue offers an opportunity to jointly publish high-quality multidisciplinary research and reviews to describe the social determinants of sexual health and behaviors; the role of sexuality in interpersonal and public health communication; personal, relational, cultural, and environmental factors affecting people's sexual communication and experiences; and effective communication and intervention strategies to promote sexual health. New research, intervention studies, and innovations in messaging, as well as reviews of the field are welcome.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
