

Special Issue

Socioeconomic and Determinants of Oral Health across the Life Course

Message from the Guest Editor

This Special Issue invites papers that increase our understanding of the nexus between the socioeconomic determinants of oral health. Research exploring causality and its mechanisms are especially welcome. It is hoped that the submissions will reflect broad representation and include many countries across the globe, especially where relevant evidence is absent. All types of studies, including original research, reviews, and short communications, will be considered.

Guest Editor

Dr. Yusuke Matsuyama

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
