

Special Issue

International Symposium on Environmental Physiology and Medicine

Message from the Guest Editors

Our potential authors are the participants to our International Symposium on Environmental Physiology and Medicine, to be held in Padova on 2–4 December 2022 (<https://simsi.it/comunicazioni-simsi/8443/>), under the auspices of *IJERPH* and SIMSI (Italian Society of Diving and Hyperbaric Medicine). This Special Issue aims to serve as a forum for proceedings to keep track of all the issues discussed during the meeting to diffuse new research techniques and identify research priorities among experts in the field. Further, the Special Issue will act as an accelerator to promote interdisciplinary studies between human and animal physiology, psychology, biomedical engineering, physics, emergency medicine, and critical care. The interconnection of scientific fields is necessary to increase our understanding of pathophysiological changes encountered by the human body exposed to hyperbaric hyperoxia or hypoxia and ensure the best management of patients.

Guest Editors

Dr. Gerardo Bosco

Dr. Matteo Paganini

Dr. Nicolò Sella

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
