

## Special Issue

# Applications of Thermal Imaging in Public Health

### Message from the Guest Editor

This Special Issue aims to publish original research, systematic reviews, technical communications, and technical protocols that help solidify the application of thermography in medicine. Authors from related areas, who have used thermal imaging for basic research that has direct application in human health, such as research for the development of fabrics or equipment that improve thermoregulation, are also invited to participate in this Special Issue. We invite authors who have used thermal images in the areas of human health, or who have developed some application of artificial intelligence or machine learning applicable to the processing or analysis of thermal images to contribute to the advancement of scientific knowledge by publishing their works.

### Guest Editor

Prof. Dr. Eduardo Neves

Graduate Program in Biomedical Engineering, Universidade Tecnológica Federal do Paraná (UTFPR), Curitiba 80230-901, Brazil

### Deadline for manuscript submissions

closed (28 February 2025)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
