

## Special Issue

# The State of Mental Health Services: Challenges, Trends and Achievements

### Message from the Guest Editor

The landscape of mental health services has changed worldwide since the onset of the COVID-19 pandemic. During the COVID-19 outbreak, mental services were disrupted, halted or rapidly transitioned to some form or combination of digital mental health and in-person care. Researchers and providers are concerned that the next public health crisis will be a mental-health pandemic. This Special Issue of the *International Journal of Environmental Research and Public Health* focuses on the current state of the provision of mental health services. Papers emphasizing digital mental health are welcome for this issue. A variety of manuscript types will be accepted for this Special Issue, including original research papers, reviews, case reports, position papers, brief reports and commentaries. The keywords listed below provide an outline of some potential areas of interest.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
