

## Special Issue

# New Threads in Environmental Toxicology

### Message from the Guest Editors

Environmental toxicology is one of the most interdisciplinary sciences that exist. Veterinarians, biologists, ecologists, chemists, engineers and other scientists work from their scientific field in this promising and current scientific discipline. The evaluation of the different environmental effects of toxic substances is very difficult, as it depends on the different organisms tested, as well as the toxicity of the individual chemical substances, as well as considering their interactive effects. We would like to invite you to submit a manuscript relating to your work on innovative insights into toxic pollutants in the environment and their impacts on natural ecosystems. It is intended to cover anthropogenic and natural pollution, both with experimental and theoretical approaches, as well as with new advances in methodology.

### Guest Editors

Prof. Dr. Miguel Motas Guzmán

Toxicology Area, Department of Social and Health Sciences, University of Murcia, 30100 Murcia, Spain

Dr. Marta Esteban López

Environmental Toxicology Unit, National Centre for Environmental Health (CNSA), Instituto de Salud Carlos III, 28220 Majadahonda, Spain

### Deadline for manuscript submissions

closed (31 January 2022)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
