

Special Issue

Topical Advisory Panel Members' Collection Series: Sport Injury

Message from the Guest Editors

We are pleased to announce this Special Issue, titled “Topical Advisory Panel Members' Collection Series: Sport Injury”. This Issue will be a Special Issue of papers from researchers invited by the Topical Advisory Panel Members. Sports injuries are injuries that occur when engaging in sports or exercise. Many people experience worsened health conditions with diverse sports injuries from mild to severe, even though participating in sports activities is, in itself, aiding health promotion. The aim of this Special Issue is to provide a venue for networking and communication between *IJERPH* and scholars in the field of Sport Injury. All papers will be published with fully open access after peer review.

Guest Editors

Dr. Nicola Relph

Dr. Vincenzo Cristian Francavilla

Prof. Dr. Beatriz Minghelli

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief
