

Special Issue

Vascular Disease and Health

Message from the Guest Editors

Vascular diseases (VDs) are a major cause of morbidity and mortality in developed countries.

“Bench-to-bedside” process harnesses knowledge from basic scientific research into clinical research to create novel treatments and medical procedures, preventions, and diagnostics essentially forming a bridge between basic research and clinical research. This Special Issue will therefore contribute to our understanding the knowledge about physiology, pathophysiology of vascular system, novel treatments as well as preventions, but not limited only to these issues.

In this Special Issue, manuscripts that focus on the topic “Vascular Diseases and Health” are welcome. This includes original in vitro, animal, and human research, cohort studies, systematic literature reviews, and meta-analyses.

Guest Editors

Prof. Dr. Agata Stanek

Department and Clinic of Internal Medicine, Angiology, and Physical Medicine, Faculty of Medical Sciences in Zabrze, Medical University of Silesia, Batorego 15 St., 41-902 Bytom, Poland

Dr. Edyta Ewa Sutkowska

Department and Division of Medical Rehabilitation, Wrocław Medical University, Borowska 213, Wrocław, Poland

Deadline for manuscript submissions

closed (30 June 2023)

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
MD 21251, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
