

Special Issue

Work Organization, Occupational Stress, and Mental Health and Wellbeing: Advances in the Evidence and Approaches to Intervention

Message from the Guest Editors

Manuscripts addressing the influences and impacts of work (e.g., scheduling, culture, social support) on mental health outcomes, and how these insights shape prevention and intervention programming (organization practices, public policy, etc.) are encouraged to submit for this special issue. Other manuscript types, such as methodological papers, commentaries, conceptual papers, systematic literature reviews, and meta-analyses, are also welcome, as are manuscripts linking work, COVID-19 and mental health.

We hope to receive papers from multiple disciplines, including public and occupational health, psychology, and sociology, among others.

Guest Editors

Dr. Adam Hege

Dr. Brian Whitaker

Dr. Michael Kenneth Lemke

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief
