Editorial Board Members' Collection Series: Physical Activity and Health

Message from the Guest Editors

We are pleased to announce this Collection entitled “Editorial Board Members' Collection Series: Physical Activity and Health”. This issue will be a collection of papers from researchers invited by the Editorial Board Members. The aim is to provide a venue for networking and communication between IJERPH and scholars in the field of modeling disease risk and outcomes. All papers will be fully open access upon publication after peer review.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
