

Special Issue

Access to Public Health Services and Challenges to Healthcare Management

Message from the Guest Editors

In this Special Issue, we aim to collect contributions that investigate the perceptions, evaluations, and analyses associated with access to public health services. We look forward to receiving insightful contributions, both qualitative and quantitative studies, regarding emerging issues in social medicine and healthcare management. We strongly encourage the submission of papers from middle- and low-income countries, especially those with a public health system, to better demonstrate the various challenges in healthcare management.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
MD 21251, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
