

Special Issue

Research on Suicide Assessment, Prevention and Management

Message from the Guest Editor

This Special Issue welcomes papers related to the following:

- Assessment and management of suicidal behavior, mental health issues, and substance use disorders;
- Follow-up and community support for discharged patients;
- Improved access to health care (improved mental health literacy);
- Increased awareness of mental health and suicide (e.g., reduced stigma);
- Intervention and postvention support for vulnerable groups;
- Interventions related to community and relationship risk factors;
- Interventions related to health system and societal or individual risk factors;
- Management of gatekeeper training and crisis support services;
- Measures for responsible media reporting;
- Mental health policies intended to reduce suicide mortality;
- Restricted access to tools (e.g., pesticides, firearms, and hazardous gasses).

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
MD 21251, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
