

Special Issue

Aflatoxins: Food Safety, Human Health and Their Management

Message from the Guest Editor

This Special Issue is devoted to research articles, reviews, or mini-reviews on the occurrence of aflatoxins in food commodities, their health risk assessment involving different age groups and different gender, seasonal variation, contamination of agri-foods before and after harvest, contamination of processed foods during the different processing steps and storage, genetic characterization and regulation of aflatoxin production, and the development of methods to detoxify or prevent aflatoxin production and accumulation in foods.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
MD 21251, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
