

## Special Issue

# Environment and Applied Ecology

### Message from the Guest Editor

This collection focuses on original research and reviews regarding environment and ecology, specifically applied ecology and its potentialities in supporting the management of the environment. The collection is also interested in conceptual articles and commentaries. Research and studies on databases, modeling approaches, and technologies applied to ecology and environment are the starting point of the future, in order to comply with the new concept of the circular economy. Legislative frameworks connected with the environmental footprint of urban ecology must be valorized, thanks to more and more innovative available tools. In this framework, studies concerning the related topics are welcome, in the form of both interdisciplinary and specialized manuscripts.

### Guest Editor

Dr. Elena Rada

Department of Theoretical and Applied Sciences–DiSTA, University of Insubria, 21100 Varese, Italy

### Deadline for manuscript submissions

closed (29 March 2023)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
