

## Special Issue

# Impact of COVID-19 on Older Adults' Lifestyle and Healthcare

### Message from the Guest Editors

The COVID-19 pandemic has significantly impacted all aspects of everyday life, in particular several issues related to healthy ageing. This special issue focused on “Advances in Socio-Economic Research on Ageing” research papers on the various aspects related to the COVID impact, such as:

- Formal and informal caregiving relationship on the caring role and the relationship between caregiver and care recipient;
- Relationship in the residential care home, in particular socialization among the residential patients and between the residential patients and their family members or parents who lived outside;
- Life of the older people during the COVID
- Perceptions, expectations and experience of older adults after the COVID restriction
- Consequences of the isolation, due to the lockdown, and of the sedentary lifestyle and their impact on the older people
- Physical activity intervention for elderly during lockdown, the evaluation of remote technology
- Developing possible Physical Activity and Exercise guidelines for elderly people recovering from COVID
- Older adults' adherence to physical activity interventions during lockdown

### Guest Editors

Dr. Cristina Gagliardi

Dr. Danilo Contiero

Dr. Barbara D'Amen

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
